NOTE Golfo di La Spezia (also known as Golfo dei Poeti) opens up between Isola del Tino and Punta Corvo. The long outer breakwater protecting Rada di La Spezia and the multitude of places of refuge and anchorages make it one of the safest parts of the Mediterranean Sea. It is therefore no coincidence that the gulf is home to a busy commercial port, major shipyards and Italy's largest navy base. Port Authority VHF ch 16 - ☎ +39 0187258100 cplaspezia@mit.gov.it

NOTE The *grecale* is the prevailing wind in winter; beautifully clear skies and high, tiny clouds over the mountains of Chiavari and Rapallo herald its arrival. It often blows for up to three days, and can be very violent at times, but it does bring good weather. The strong *mistral* In the Golfe du Lion often reappears along the Riviera di Levante as a *scirocco*. In the summer, southerlies predominate.

Protected Marine Area (ATM) of the Porto Venere Regional Natural Park

The ATM comprises the south-western area of Isola Palmaria, the islands of Tino and Tinetto, and the Prateria di Posidonia in the channel that separates Porto Venere from Isola Palmaria.

Permitted activities Navigation under sail and motor at a speed of less than 6 knots; moorings for craft in areas designated by the reserve authority; access and anchorage in the area between Isola del Tino and Isoletta del Tinetto (marked by red buoys) for pleasure craft <10m LOA; 10m/24m yachts can use the red mooring buoys; diving with breathing equipment authorised by the park authorities, with or without the support of diving schools or clubs.

Prohibited activities Craft are not allowed to stop or anchor in the sea area off Isola del Tino between Punta Bianca to Porticciolo, unless they have the navy's permission; anchorage is also prohibited between Punta Beffettuccio and Punta Secca (Isola Palmaria) and in the stretch between Capo dell'Isola and the southern boundary of the ATM. The park authorities, however, have marked off some areas for anchorage. Landing on Isola del Tino is prohibited unless you are on a park-organised tour and have prior permission from the navy. Landing on Isolotto del Tinetto, is prohibited unless you have the park authorities' permission. All activities that may damage or endanger the environment are also banned. See national, regional and local regulations.

Park Authorities ☎ 0187 794823/885 - atm@parconaturaleportovenere.it - www.parconaturaleportovenere.it

Baia di Porto Venere ⚓ 94 44°03'25N 009°51'10E
Yachts navigating the Porto Venere channel must not exceed 6 knots and must keep to the starboard.
Seno dell'Olivo Yachts can anchor to the N of the Pontile Ignazio yacht harbour, off the extensive mussel beds and mooring buoys in about 10m on sand and mud. By day, anchorage is disturbed by the heavy maritime traffic crossing the channel as it causes an uncomfortable swell.
Seno di Terrizzo Yachts can anchor in 5-10m on mud, or on mud and weed just off Isola Palmaria. Excellent shelter. Care is needed of the mussel beds and the numerous moorings laid across the bay. The ferry channel that links Porto Venere with Isola Palmaria should be left clear.
Port Authority VHF ch 16 - ☎ +39 0187 790768

NOTE In strong S-NW winds and heavy seas, breaking waves cross the narrow passage from the W to Baia di Porto Venere, making entering or leaving hazardous; it is better to pass further S between Isola Palmaria and Isola del Tino.

Porto Venere ⚓ 92 44°03'03N 009°50'24E
This small harbour provides 32 berths (max. LOA 50m), including 6 for visitors. Finding a berth, however, is highly unlikely, so call up in advance to book or find out what berths are available. Molo Doria is reserved for passengers and goods. A strong *tramontana* or *grecale* makes berths slightly uncomfortable, otherwise the harbour is well protected.
Porto Venere Marina Misenti VHF ch 09 - ☎ +39 0187 793042 porto@portodiportovene.it - www.portodiportovenere.it

Pontile Ignazio ⚓ 93 44°03'17N 009°50'34E
Just N of the harbour are the Ignazio pontoons, which are well protected but disturbed by a constant flow of craft causing an uncomfortable wash. In the approach, care is needed of the numerous mooring buoys off the harbour. The pontoons have 45 berths (max. LOA 25m), but it is best to book or ring in advance to check availability.
☎ +39 0187 791364 / 366 4534446 / 339 7218248 info@pontileignazio.org - www.pontileignazio.org
