

## **Imbarcazioni in legno Il restauro consapevole**

Errata corrige

Aggiungere nel colophon:

Clamps and wood shavings with a copy of the original 1898 Herreshoff Manufacturing Company's plans for the Buzzards Bay 15 in the background, at Artisan Boatworks, Rockport, Maine, USA.

The Hart Nautical Collections at the MIT Museum, Boston, Massachusetts, allow access to thousands of images of these historical designs, making it possible for wooden boatbuilders to accurately restore or re-create the timeless Herreshoff designs.
